

Ohio is currently undergoing redistricting, and in compliance with Ohio law, precinct lines cannot be moved within the same calendar year as central committee elections for either party*.

The Montgomery County Board of Elections met on December 30th and approved the map that takes into account the proposed new Ohio House & Senate districts. This map also includes precinct adjustments and additions. This map will remain APPROVED until the litigation currently pending before the Ohio Supreme Court is completed.

As a practical matter for any potential candidates and interested parties we have created high resolution 2022 MAP PDFs of each precinct and Ohio House & Senate District in Montgomery County, but we *strongly* encourage anyone planning to circulate petitions for any office prior to the February 2, 2022 filing deadline to contact our office for direct guidance on which areas are the most likely to provide qualified signatures for any office.

Because of the pending litigation we cannot yet update our voter registration system to reflect these new maps to create walk lists online. Our staff has devised a way to create walk lists internally, so please contact us directly so we can assist you

We know that all of this is quite complex and can be confusing and we are going to do our best to help, so please feel free to reach out to our Candidate Services staff at 937-225-5669 at any time with questions or for clarification.

*The litigation currently before the Ohio Supreme Court could impact this provision of Ohio law.
